colour patterns

Wood is one of the most noble, beautiful and versatile natural products we have. Every piece of wood is unique. Differences in colour are a result of the wood's structure and place of origin. Similarly, the age of the piece of furniture will determine its colour, as natural factors in your home's environment (e.g. sunlight) can change the surface colour. When your order specifies a particular colour, we do our best to match it. But minor variations in wood, leather, fabric, glass and ceramic are inevitable. An exact colour match will never be possible.

about the systems

TEAM 7 Kitchens are as individual as your lifestyle. Discover the diversity of our kitchens!

PURE PLEASURE

With their clear design these kitchens set elegant accents in the living space and combine simplicity with functionality.

A BITE AT THE MARKET

Kitchen models that provide an almost infinite scope for individualised planning in every size and style.

WALKING IN THE FOREST

Real wood, used generously and felt with all the senses, is at the heart of these kitchens.
